

To Whom It May Concern,

This certificate of completion is hereby presented to **Ali Al-Khanchi** in recognition of his hard work and dedication for creating an interactive emenu applications for iPads for Al Rawi Bookstore & Cafe and Shababeek restaurant in Sharjah.

Interactive e-menus have helped to utilize menus in both venues more efficiently as the items are sorted in different sections and have photographs of the dishes which can also be enlarged. The applications vastly improved customer awareness about our menu and has helped staff with up-selling of menu items.

During the period of designing the emenu applications, Ali has demonstrated great enthusiasm to learn and grow professionally. Both applications were created very quickly and are made easy to use, overall design of the emenus was made to be interactive since they have different sections and filters.

Congratulations & thank you for all your hard work.
